IPP Technologies (trading as IPP Communication Solutions) enters into an Alliance partnership Agreement with Sing Tel Optus Australia

April, 2010 – Sydney, Australia – IPP Technologies, a major supplier of software products and services in the Australian IT market place, today announced the signing of an alliance partnership agreement with Sing Tel Optus, Australia. As a part of this relationship, IPP will be providing a full suite of telecommunication products services to the mid market clients across Australia.

“IPP has been providing software products, development and maintenance services including application and data migration services to our large Government and Corporate clients in the Australian IT market place for more than a decade. With the signing of this agreement, we will be able to deliver communication solutions to the mid-market clients in Australia. Entering into the mid market client base is a significant step for IPP’s operations in Australia” said Subba Rao Varigonda, Managing Director of IPP Technologies Pty Ltd.

About IPP Technologies

IPP Technologies Pty. Ltd. (IPP) is an Australian Software development and consultancy company with core competence in Information Technology & Management Solutions and Services. Founded in March 1993 with its registered offices in Sydney, Australia, IPP’s mission is to provide cutting edge IT solutions and services to its clients in the Australian IT market place. Since its inception, IPP has established its reputation and credentials equally in the Government IT and Corporate sectors spanning across all the States in Australia. IPP has the privilege of being on the panels of Federal and State(s) Governments and has the highly reputed “Endorsed supplier’s status” to Federal Govt. IPP also enjoys “Authorized Services Provider” status with IBM GSA, and other leading corporations in Australia.

IPP’s services cover IT consulting, software development and maintenance including application and data migration services and professional services, across various vertical markets. IPP is also a distributor in Australia and New Zealand for a number of products. Some of these are:

- GIFTStm – a product from MicroEdge Inc USA, the leading provider of software for grant makers across the globe.
- Archival and Website Migration products from Metalogix Inc, USA
- WebLoadtm from Reviews Software Inc, the leading global provider of Performance and Load Testing products

Some of the IPP’s clients include NSW RailCorp Australia, Victoria Health, NSW Police, NSW Health, Qantas, HP Australia, Victoria Legal Aid, IBM GSA, NSW Police, Myer Foundation, Ian Potter Foundation and a number of other large government departments and corporations.
