IPP Technologies has entered into an Business Alliance Agreement with Radview Software Ltd

July, 2009 – Sydney, Australia – IPP Technologies, a major supplier of software products and services in the Australian IT market, has entered into our business relationship with RadView Software Ltd. As a part of this relationship, IPP will be a re-seller of RadView's full suite of software products for testing the performance, scalability and reliability of their internet applications.

Founded in 1993, RadView Software Ltd is a leading provider of Performance and Load Testing software. RadView provides its customers with a state-of-the-art, highly efficient, robust solutions for testing the performance, scalability and reliability of their internet applications.

RadView has achieved Performance Testing Leadership with its award-winning WebLoad product suite that has delivered high value to RadView's more than 2000 customers, leading Enterprises in major Industries and IT Service Providers worldwide.

IPP is a business partner to RadView Software Ltd (a global supplier of software quality assurance products), and is a re-seller of RadView's Performance and Load Testing Software tools in Australia/New Zealand and its target markets in the APAC Region & the Middle-East Region. IPP also offers related implementation & support services for RadView's Products to businesses who want to ensure that their Internet applications can handle the anticipated load when the system goes live.

In addition, IPP also offers a comprehensive suite of Testing Services to its clients in Australia/New Zealand and its target markets in the APAC Region & the Middle-East Region.

"IPP has been providing software products, development and maintenance services including application and data migration services to our large Government and Corporate clients in the Australian IT market place for more than a decade. With the signing of this agreement, we will be able to deliver a more comprehensive portfolio of Application Development & Maintenance (ADM) Services to the Australian market" said Subba Rao Varigonda, Managing Director of IPP Technologies Pty Ltd.

About IPP Technologies

IPP Technologies Pty. Ltd. (IPP) is an Australian Software development and consultancy company with core competence in Information Technology & Management Solutions and Services. Founded in March 1993 with its registered offices in Sydney, Australia, IPP's mission is to provide cutting edge IT solutions and services to its clients in the Australian IT market place. Since its inception, IPP has established its reputation and credentials equally in the Government IT and Corporate sectors spanning across all the States in Australia.
